

Dear Dr. M. Winnewisser,

we are planning to publish in cooperation with Elsevier and the Publishing House Academia about 10 - 12 selected papers read at this Seminar in a monography. It would be great honor to us if we could include your paper into this monography. The succes of this project depends also on the date to which the authors could submit their manuscripts (up to 30 typewritten pages) and we would like to discuss this problem with you in Prague. Formal requirements for the preparation of the manuscript would be the same as author's instructions for publication in J. Mol. Spectroscopy.

With best regards,

*Papoušek*

Dr. D. Papoušek
