Announcement of the
2nd International Seminar on High Resolution Infrared Spectroscopy in Prague, August 31 - September 3, 1972

Information Bulletin No. 1

We have the pleasure to inform you that the 2nd International Seminar on High Resolution Infrared Spectroscopy will be organized in Prague, on August 31 - September 3, 1972, by the Institute of Physical Chemistry of the Czechoslovak Academy of Sciences under the sponsorship of the Czechoslovak Spectroscopic Society. Papers presented by the participants of the seminar are supposed to deal mainly with problems of the theory of vibrational-rotational motions of molecules, determination of molecular structure from high-resolution data, experimental technique of the high-resolution infrared spectroscopy including Lamb-dip spectroscopy and Stark spectroscopy in the infrared region, computer simulation of infrared bands, and force constants calculations. Papers on microwave studies will be welcome, especially if they will deal with vibrational-rotational interactions and submillimeter region, as well as papers on high-resolution Raman spectroscopy.

Application forms will be sent off by the Organizing Committee in January, 1972.

We are looking forward to see you in Prague!

Dr. D. Papoušek
Chairman of the Organizing Committee

Dr. M. Horák
Secretary of the Czechoslovak Spectroscopic Society
